

Benefits of the Superstreet

- ✓ A traffic phase is eliminated, improving intersection efficiency
- ✓ Future Widening of Floresta Dr. to 4 lanes accommodated without acquiring additional property
- ✓ Potential crashes are reduced and less severe than for a traditional intersection
- ✓ Pedestrian safety improved:
 - Provides large refuge in median
 - Eliminates potential conflict between pedestrians and left-turning vehicles on Crosstown Parkway.

Superstreet vs. Traditional Intersection Design

Measurement Criteria	Traditional	Superstreet	Improvement
Opening Year Grade (2017)	E	B	3 Levels
Design Year Grade (2037)	F	C	3 Levels
Conflict Points	32	14	56% fewer
Average Delay Time	122.6 sec	14.7 sec	8 times faster
